animated gradients, just a few controls.

MB Random Gradient

Guide of
Installation
& Quick Start

Installation

Use the aescripts + aeplugins manager app to install or license MB Random Gradient. To try it first, choose Account > Add Trial. Trial renders include an X watermark.

Download the manager app here:
https://aescripts.com/learn/aescripts-aeplugins-manager-app/

Steps

1. Install the aescripts + aeplugins manager app.

2. Open the aescripts + aeplugins manager app, and sign in to your aescripts account.

3. Search for `**MB Random Gradient**` and install.

4. Restart Adobe After Effects.

5. In After Effects, find the effect in the Effects menu.

Manual Installation if needed

Manual installation is only recommended if you cannot use the aescripts + aeplugins manager app.

macOS

Copy the MB Random Gradient plug-in bundle to one of the following After Effects plug-in locations:

```
/Applications/Adobe After Effects [version]/Plug-ins/
```

or:

```
/Library/Application Support/Adobe/Common/Plug-ins/7.0/MediaCore/
```

Windows

Copy the MB Random Gradient plug-in to one of the following After Effects plug-in locations:

```
C:\Program Files\Adobe\Adobe After Effects [version]\Support Files\Plug-ins\
```

or:

```
C:\Program Files\Adobe\Common\Plug-ins\7.0\MediaCore\
```

Quick Start

1. Apply MB Random Gradient to a solid, text, or shape layer.
2. Open Colors and choose your palette.
3. Tweak Speed and Point Scale. Keep Relative Position on when the layer moves.
