chatty.

QUICK START GUIDE

Create Animated Chat Conversations in After Effects

1. Installation

RECOMMENDED

The easiest way to install and license Chatty is with the **aescripts + aeplugins Manager**.

aescripts + aeplugins Manager

https://aescripts.com/learn/post/aescripts-aeplugins-manager-app

To install a trial version, select **Add Trial** from the **Account** menu in the Manager.

Need help installing?

https://aescripts.com/faq/article/view/faq/aescripts-aeplugins-manager-app-faq

ALTERNATIVE

Alternatively, you can install Chatty using the **aescripts + aeplugins ZXP/UXP Installer**.

ZXP/UXP Installer

https://aescripts.com/learn/zxp-installer

AFTER INSTALLATION

After installation, restart After Effects and open:

Window > Extensions > Chatty

2. Quick Start

1 **Add Messages**

Build your conversation with the content you want to animate.

2 **Select a Style**

Choose a preset or style setup that fits the scene.

3 **Click "Let's Chat"**

Generate the animated composition from your conversation.

4 **Customize the result**

Use the controls on the **_SETTINGS** layer to refine the generated chat.

3. Supported Content

💬 **Text**

😀 **Emojis**

📷 **Images** [JPG, PNG, BMP, GIF]

🎥 **Video** [MP4, MOV]

🎧 **Audio** [WAV, MP3, M4A]

MEDIA REPLACEMENT

Generated media placeholders may be replaced in After Effects with higher-quality assets, including PSD, PNG, ProRes, EXR, and other formats supported by AE.

4. Licensing

Chatty uses the aescripts licensing framework.

Trial and purchased licenses can be managed through the aescripts + aeplugins Manager.

5. Support

For support, please use the support links on the Chatty product page.
