Installation guide.

The easiest way to install and license is by using the aescripts + aeplugins manager app. To install a trial you can select 'Add Trial' from the 'Account' menu.

If you need for some reason to install plugin manually follow this steps:

Windows

Unzip file Flowr_v#.#.zip
From folder Windows copy file Flowr.aex to folder:
C:\Program Files\Adobe\Common\Plug-ins\7.0\MediaCore

MacOS

Unzip file Flowr_v#.#.zip.
From folder macOS copy file Flowr.plugin to folder:
/Library/Application Support/Adobe/Common/Plug-ins/7.0/MediaCore

Registration.

To register automatically, you can use the aescripts manager app.
For manual registration run After Effects, create new composition, add a new solid layer, apply effect irrealix -> Flowr and then click Register inside the Effects Control Window and enter your serial.
