How to Install ToneCraft

The easiest way to install ToneCraft is by using the aescripts manager app:

https://aescripts.com/learn/aescripts-aeplugins-manager-app/

If you prefer to install it manually, follow the steps below:

1. Download the plugin file
   (`.aex` for Windows, `.plugin` for macOS)
2. Place the file in the appropriate Plug-ins folder:

   Windows (After Effects / Premiere Pro):

   ```
   C:\Program Files\Adobe\Common\Plug-ins\7.0\MediaCore\
   ```

   macOS (After Effects / Premiere Pro):

   ```
   /Library/Application Support/Adobe/Common/Plug-ins/7.0/MediaCore/
   ```

3. Restart After Effects or Premiere Pro

After restarting, ToneCraft will appear in the Effects panel.
